

# PECOS EXPOSITION WILL BE EVENT OF MOMENT IN RICH VALLEY

People Are All Working Strenuously for Street Fair and Carnival Which Will Rival All Past Ventures.

## FRUIT DISPLAY WILL BE RECORD BREAKER

(Special Correspondence to the Herald.) Roswell, N. M., Aug. 7.—All eyes are being turned toward the Pecos valley and the street fair and carnival which will be held in the town of Roswell, N. M., on the 10th, 11th, 12th and 13th inst. The fair is being given by the Pecos valley fruit growers' association, and is expected to be the largest and most successful ever held in the valley. The fruit display is going to be a record breaker, and is expected to be the largest ever seen in the valley. The fair is being given by the Pecos valley fruit growers' association, and is expected to be the largest and most successful ever held in the valley.

At the meeting of the boosters of the fair and the various committees at the Commercial club room this week business was disposed of in a manner that showed that there was a unanimity of opinion among the boosters and the committees. The boosters are all working strenuously for the success of the fair, and are expected to be the largest and most successful ever held in the valley.

Three members of the city council were present and promised to do everything in their power to make the fair a success. The boosters are all working strenuously for the success of the fair, and are expected to be the largest and most successful ever held in the valley.

Coming from the big wild west stunts, receding will see stories as read in the story books of childhood the visitor then will appreciate the beautiful and interesting displays of the valley, and the beauties of Roswell built from the dry land claims of only a few years ago.

## HUNTERS SHOOT AT FARMER'S WIFE

Las Vegas Man Doesn't Object to Shooting Doves of Feathered Variety, But He Has Only One Wife, He Says. Las Vegas, N. M., Aug. 7.—Charles Hammond, who resides in the neighborhood beyond Tomeroville, says there are plenty of doves on his place and he doesn't care how many of them the hunters slaughter. Mr. Hammond has but one wife, however, and he believes he could have difficulty in finding another for equal. Therefore he requests the hunters not to kill his wife. On the opening day of the dove season some hunters opened fire a short distance from Mrs. Hammond. Several of the shot went through a scarf she had about her head and a heavy comb the woman was wearing in her hair was broken by them. On the same evening Mr. Hammond and his hired man were milking cows. Some hunters shot nearby. The spent bullets hit the cows, which jumped and cavorted about, upsetting Mr. Hammond's milk pail and his temper simultaneously. Some of the shot hit a bull, which stampeded, reminding the owner of the battle of Bull Run. Mr. Hammond did not learn the identity of either hunting party. He wishes hunters on his place would use more care in the future.

Buy it now. Now is the time to buy a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It is almost certain to be needed before the summer is over. This remedy has no superior. For sale by all dealers.

# DISPUTE OVER A WATER RIGHT IS NOW SETTLED

Long Contested Differences on Tularosa Valley Come to Amicable Solution; Water Users and Cattle Company Interested.

Tularosa, N. M., Aug. 7.—A transaction which was closed here last week will have the effect of settling permanently all differences which have heretofore existed between the people of the Tularosa valley and the Tularosa Land and Cattle company, (the latter holding land and securing very valuable water rights in Tularosa canyon. This matter in the transaction were the Tularosa Community ditch corporation and the Tularosa Land and Cattle company. The former organization is composed of the land and water right owners of Tularosa and vicinity, while the latter company is owned entirely by Thomas B. Cotton of Santa Fe, and John Hiley, who now makes his home in Colorado Springs.

The main desire establishing or adjusting the rights of the three parties to the old water suit, fixed the hours which each party might use the waters of Tularosa canyon. The desire settled the purpose as well as any desire could, but it did not, and could not, eliminate all the differences between the water users on the valley and in the canyon. This agreement which was entered into Monday will settle those differences.

The Tularosa Community ditch corporation owns one hundred and seven water rights from Tularosa canyon. The Tularosa Land and Cattle company owned fifty water rights from the same source, and a large acreage of land in the canyon. Under this transaction the former organization acquires title to all the land formerly owned by the latter company, and the water rights of the former are merged with the water rights of the latter. The latter company retains ownership of the fifty water rights, but there is the agreement that the water must be used on the valley, west of the mouth of the canyon. Some thirty-three of these fifty rights have been sold to citizens of Tularosa and vicinity, but under the iron-clad agreement that the water can be used only in the valley. All subsequent sales or transfers of these fifty water rights will carry the provision that the water must be used west of the mouth of the canyon.

The people of the Tularosa valley have now one hundred and fifty-seven water rights available for irrigation and for domestic use for the people of the town of Tularosa. This will mean the doubling of the present acreage in cultivation. It is estimated that the present area in cultivation is twelve hundred acres. It is predicted that within twelve months this area in cultivation will be increased to at least two thousand acres. It is estimated that the best and most modern methods of irrigation and distribution are put into use, the area in cultivation can be increased to five thousand acres.

This transaction, in its far-reaching results of improvements and betterments, is the biggest and best thing that has ever come to Tularosa. Everyone who is interested in the prosperity and material development of Tularosa, has excellent reasons to feel pleased and gratified with the settlement of this controversy.

In the arrangement of the legal details of the transfer and agreement, Judge Albert R. Fall represented the Tularosa Community ditch corporation, while Mr. Cotton looked after the interests of the Tularosa Land and Cattle company, of which he is the half owner.

## HUNTERS SHOOT AT FARMER'S WIFE

Las Vegas Man Doesn't Object to Shooting Doves of Feathered Variety, But He Has Only One Wife, He Says. Las Vegas, N. # ROSWELL BOY CAN NOT SPEAK HIS OWN TONGUE ANY MORE

Robert Lea Went to Mexico at Early Age and Was There So Long He Forgot the English Language.

## VISITS OLD HOME IN PECOS VALLEY

(Special Correspondence to the Herald.) Roswell, N. M., Aug. 7.—Nearly everybody of any years in Roswell remembers the two bright little sons of Joseph B. Lea, who a number of years ago moved to Chihuahua, Mexico, where he has since been a prominent man on the staff of the Enterprise.

When they left the boys were about 5 and 8 years of age and of course chattering good old United States like nappies.

One of the lads, Robert E. Lea, has been somewhat of an adventurous spirit and twice ran away to join the insurgents, though too young even for that motley army.

This week he showed up in Roswell, proving that such a thing as the border had no terrors for him.

A feature of the runaway lad's appearance is that he can not now talk English, having for so long had only Mexican playmates, and he is struggling with native friends in Chihuahua for rather than to visit his own people, with whom he would find a hearty welcome, no matter what he should talk.

Probably a stranger case never occurred in the history of Roswell, for the lad is a nephew of Captain J. C. Lea, of general memory, the man who lauded the "red" and has many relatives here who have been prominent in the life of the town since its founding.

## A LARGE BODY OF ORE FOUND

Economic Properties at Carrizo Will Develop Exceptionally Rich Copper and Silver Field.

Carrizosa, N. M., Aug. 7.—There has been a new discovery made of ore on the Economic Mining and Milling company eight miles southwest of Carrizosa, during the past week, which may develop that property into being one of the great mines of the southwest. The ore body has been uncovered for 2,229 feet and the vein cuts the mountain in two east and west. This new find is an entirely new claim which adjoins the company property on the north and was accidentally run onto by the president of the Economic company, Geo. C. Hopkins, a short time ago. A small amount of surface work has revealed an immense body of ore, tant through assay shows copper carbonates and the average value to the ton is estimated at \$10. While the find is not of body of ore of a very rich character the large amount or extent of the find should make a splendid "low grade" proposition.

The company's claim is but five miles from the railroad at Pelly and the ore body is so situated that it would be possible to mine the ore at a very cheap rate as well as get it to the railroad over a down hill pull. It is thought that the ore could be shipped to the smelter at El Paso at a profit but should this not prove practical a small smelter at this claim using the coal nearby would make the proposition possible to work to advantage.

This is a find that will invest in any way with the original plans of the company and the work continues to go on in the tunnel of the company's main property and will be continued until the intersecting of the main shaft is accomplished. There is no question as to the company having large bodies of ore and all tests seem to indicate that the ore are of sufficient values to make the proposition a paying one.

## AN EMPTY POCKET "DON'T GET NOTHING"

Chicago, Aug. 7.—Mike Phelan, a 17-year-old lad, who occupies the position of boy in a morning newspaper, vows he will be the first depositor in the United States postal savings bank, which has been advertised to open for business today. Mike, who took his stand at 7 a. m. in front of the doors at the bank in the main postoffice, vouchsafed the information that his first deposit would be \$5.

# New Mexico State Fair

## Albuquerque, October 9, 10, 11, 12, 13 and 14

The program for the coming fair will be new, novel, engaging, exciting, comprehensive and popular.

### EXHIBITS

Special attention is being given all exhibit departments and the premium list contains prizes for everything that is grown in New Mexico. Write today for premium list.

## Aeroplane Flights

The management is negotiating with famous aviators for exhibition flights during the fair and will be able to make a positive announcement within a short time.

\$1,000 "Bull" Durham Stake Race, for 2:12 Pacers, to be Raced on "Bull" Durham Day, Friday, October 13. This stake was given by Blackwell's Durham Tobacco Co.

## The Famous Nat Reiss Carnival Company

have been engaged to furnish the down town attractions. This company consists of twenty high class shows, various riding devices, etc., etc.

## Special Rates on All Railroads

Isaac Barth, President John B. McManus, Sec'y-Mgr.

## LORD KITCHENER IS POPULAR WITH EGYPTIANS

His Appointment as Agent in Soudan and Egypt is Received With Enthusiasm Except Among the Nationalists

(By Evening Herald & P. Leased Wire) London, Aug. 7.—Except among the Egyptian Nationalists, who, however, have been very quiet of late, the appointment of Lord Kitchener as British agent in Egypt and the Soudan, has been received with the greatest enthusiasm. Here in England satisfaction is expressed at the fact that the government has at last found something for the greatest of British generals to do, something that is considered worthy of his talents, while the British residents in Egypt have received the news with the warmest delight.

Although Sir Edward Grey has announced in the house of commons that the appointment of Lord Kitchener does not involve any change in the government's policy, there is a feeling both here and in Egypt that if there is no change, there will be at least a different way of carrying out that policy. Kitchener's reputation gives the imperialist hope that he will do a little more drastically with those Nationalists, who at the commencement of the late Sir Elton Dore's administration, attempted and to some extent succeeded in stirring up trouble.

While the Nationalists are quiet and their leaders disassociate themselves from all talk of violence, there is known to be a great deal of smoldering discontent, encouraged by the socialist members of parliament. A strong man, it was felt, was needed to keep this under, and in Kitchener the people believe they have the man. His long experience in Egypt and the Soudan further his him for the place and his appointment was doubtless made with the almost practical certainty that British prestige would benefit from his administration. There are some optimists who believe that this benefit will spread throughout the near east and that with Kitchener and a strong army in Egypt, Britain will be able to formulate and carry out any plans she may have in Turkey and Persia or frustrate any schemes of other powers that might interfere with England's policy.

## CLOVIS TO BE EDUCATIONAL CENTER

Results of the County Institution Are Very Encouraging; High School Weekly Enlarged.

(Special Correspondence to the Herald) Clovis, N. M., Aug. 7.—Superintendent Griffin of the Clovis public schools is enthusiastic as to the outlook of the educational institutions of this county for the coming year. It is his plan to so stimulate interest in matters of pedagogy as to make Clovis an educational center for the entire region. He says:

"The present outlook for the school would not be brighter and the number of pupils in the high school grades will probably be twice as large as last year. We expect to make Clovis an educational center in this part of the west."

Another factor in harmonizing the school interest of the county is the fact that the high school weekly has been considerably enlarged. Several columns of this paper have been reserved for the faculty of the county teachers, and will be edited by them. The fact that a great portion of the teachers that were at the institute this year submitted to the weekly will bring their interests nearer together and time work for greater harmony in county school administration. The following teachers will compose the faculty of the county schools this year: V. L. Griffin, superintendent; L. M. Beckley, principal of the high school; C. E. Davis, Misses Jennie Adair, Emma Butler and Lee Hovden complete the faculty in the high school; the grade teachers are Misses Leah George, Catherine Buchanan, Anna McManis, Catherine Burns, Verda Norris, Laura Turcotte, Doris Mrs. Reeves and Mrs. Collins.

If you want a stylish horse and buggy, see W. L. Trimble, 113 North second St. Phone No. 2.

## VALUABLE TIMBER CAUSES SCRAMBLE FOR FILING

Las Cruces Land Office is the Scene of Excitement Scarcely Rivalled in Days When Cherokee Strip Was Opened

(Special Correspondence to the Herald) Las Cruces, N. M., Aug. 7.—Panic-moment reigned in the hall of the United States land office Wednesday morning when Register Joe Glavin opened the door for the day and eight stalwart Americans tried to enter a 2-foot 6-inch opening at the same time. Each claimed that he was first and each tried to impress the fact upon the mind of the register, who was trying to keep the applicants quiet.

The rush to the land office was the result of some valuable timber land being thrown open to entry near Elgin, a small village near Silver City. A few of the would-be timber owners arrived Tuesday night and took their posts at the land office door pending its opening at 9 the next morning. After discussing the long watch and a sleepless night the applicants shook hands and agreed to return at 8:30 the next morning. They returned the next morning only to find other prospective lumbermen in the doorway with a determination that spoke "Don't tread on me." The three who managed to file were Applehans, Jackson and Royall.

A series of nine striking Rocky Mountain views in colors, put up in convenient folder form, with descriptions of some of the wonder places of the west, has just been issued by the Denver & Rio Grande railroad. It bears the title, "Panoramic Views," and is printed on good paper with stipple effect, which reproduces most effectively the original water color paintings from which the illustrations were made.
